

SIMATS ENGINEERING
Department of Computer Science and Engineering

COURSE NAME:	Cloud Computing and Big Data Analytics – Model Practical Examination	COURSE CODE:	CSA1522
---------------------	--	---------------------	---------

Name	M.Sandeep
Register Number	192525095

MODEL PRACTICAL EXAMINATION – SET 1

Answer all questions. Each question carries equal marks (20).

Total marks: 100

1. Create a simple cloud web application for Student Counselling System using any Cloud Service Provider to demonstrate SaaS. Include the fields of Student Name, Age, Address, Phone, Subjects Studied, Year of Passing, Percentage of Marks, Domain Interest, etc.
2. Create a simple cloud software application for Library Book Reservation System for SIMATS library using any Cloud Service Provider to demonstrate SaaS. Include the necessary fields such as Title of the Book, Author, Publications, Year, Edition, No. of Copies, Rack No., Status (Taken/Returned), etc.
3. Install VirtualBox/VMware Workstation with different flavours of Linux or Windows OS on top of Windows 7 or 8.
4. Showcase virtual machine migration based on certain conditions, from one host to another.

Experiment :

1. Aim : Create a simple cloud web application for Student Counselling System using any Cloud Service Provider to demonstrate SaaS. Include the fields of Student Name, Age, Address, Phone, Subjects Studied, Year of Passing, Percentage of Marks, Domain Interest, etc.

Procedure :

1. Open Zoho Creator
2. Create the Student Form
3. Create the Form
4. Create a Report
5. Test the Application

Implementation:

Result:

A cloud-based Student Counselling System was successfully created using Zoho Creator. The application collects student personal, academic, and domain-interest details and stores them in the cloud.

2 .aim:Create a simple cloud software application for Library Book Reservation System for SIMATS library using any Cloud Service Provider to demonstrate SaaS. Include the necessary fields such as Title of the Book, Author, Publications, Year, Edition, No. of Copies, Rack No., Status (Taken/Returned), etc.

Procedure :

1. Open Zoho Creator
2. Create the author Form
3. Create the Form
4. Create book catalog
5. Create a Report
6. Create dashboard
7. Test the Application

Implementation :

Result : A cloud-based simats library management system was successfully created using Zoho Creator. The application collects student personal, author details , catalog, dashboard, and stores them in the cloud.

3. aim : Install VirtualBox/VMware Workstation with different flavours of Linux or Windows OS on top of Windows 7 or 8.

Procedure :

1. Install VirtualBox
2. Create the First VM
3. Install Ubuntu
4. Create Another VM
5. Verify the Virtual Machines

Implementation :

Result :

Successfully Installed VirtualBox/VMware Workstation with different flavours of Linux or Windows OS on top of Windows 7 or 8.

4. aim : Showcase virtual machine migration based on certain conditions, from one host to another.

Procedure :

1. Create the VM on Host A
2. Create a test file
3. Shut down the VM
4. Export the VM from Host A
5. Import the VM on Host B
6. Start the VM on Host B

Implementation :

Result :

Successfully Showcased virtual machine migration based on certain conditions, from one host to another.
