

LAB MANUAL

**CSA1522-CLOUD COMPUTING AND BIG DATA
ANALYTICS**

Experiment 1-11

**Student name: M.Sandeep
Register number: 192525095**

EXPERIMENT 1:

CREATE A SIMPLE CLOUD SOFTWARE APPLICATION FOR FLIGHT BOOKING RESERVATION SYSTEM USING ANY CLOUD SERVICE PROVIDER TO DEMONSTRATE SAAS.

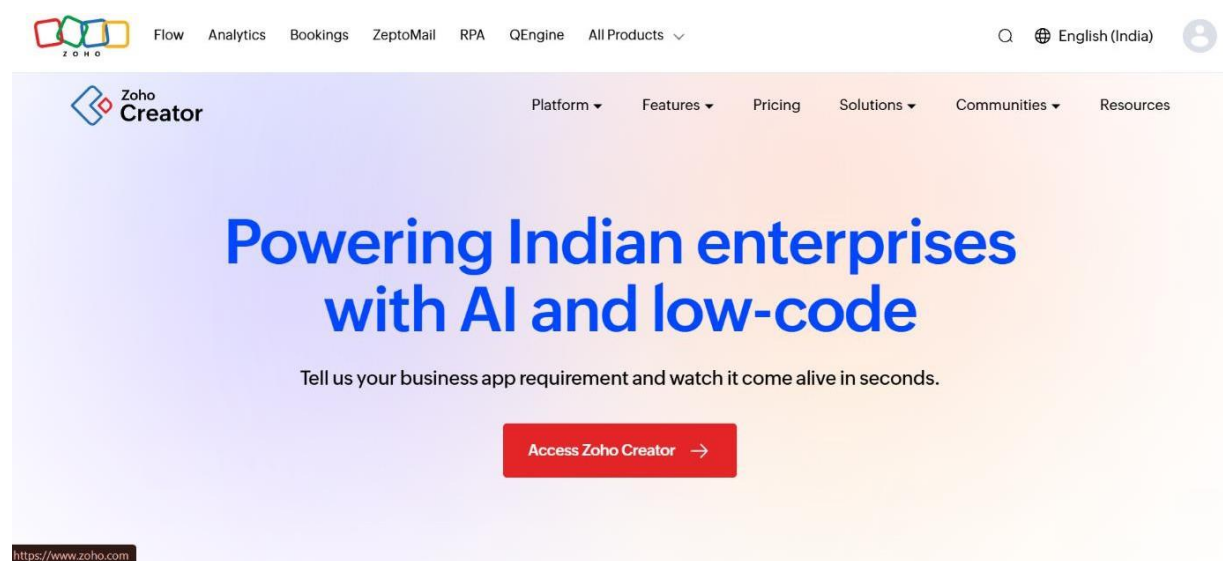

AIM:

To Create a simple cloud software application for Flight Booking Reservation System using any Cloud Service Provider to demonstrate SaaS.

PROCEDURE:

STEP1:

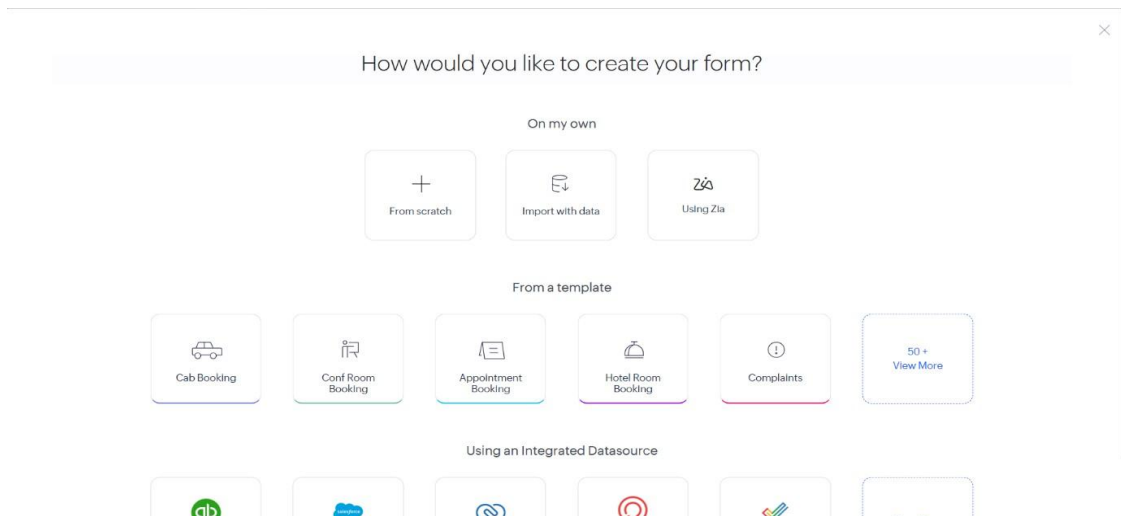

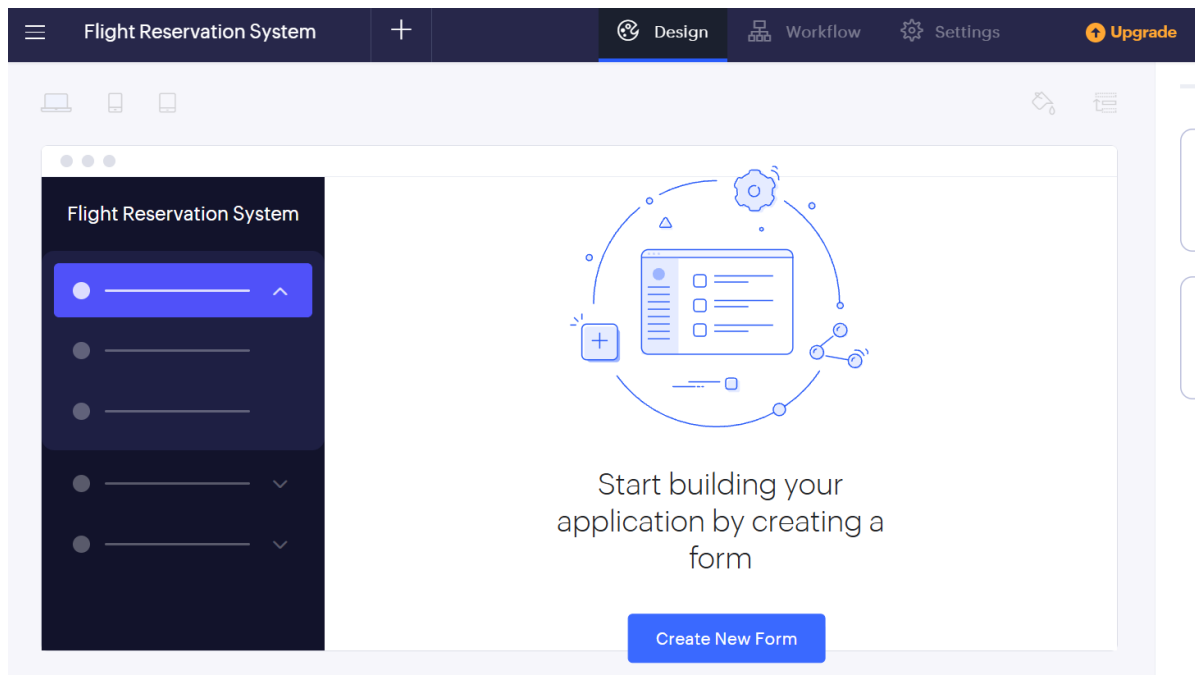

Log into zoho.com

STEP 2: Create new application from scratch

The image shows the "Create from scratch" form in Zoho Creator. At the top, there are four icons: a blue circle, a white square, a white circle, and a white square with a plus sign. Below these icons is the text "Create from scratch". The form has a light gray background. It contains a label "Application Name" with a red asterisk. Below the label is a text input field containing "Flight Reservation System". Below the input field is a checkbox labeled "Enable Environment" followed by a blue link "Learn More". At the bottom of the form is a large blue button labeled "Create Application".

EXPERIMENT 2:

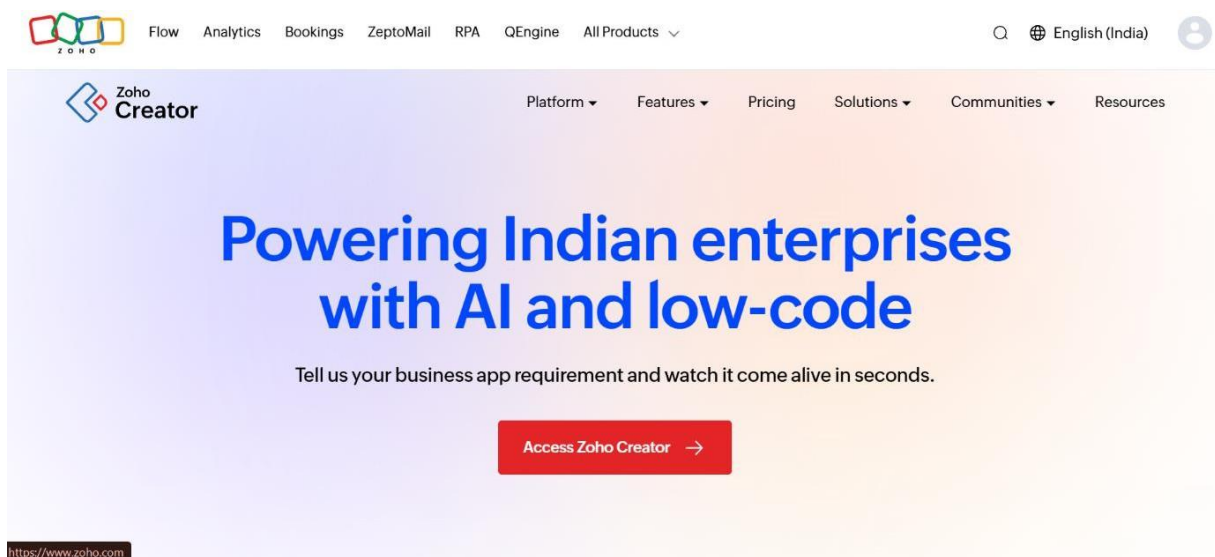

CREATE A SIMPLE CLOUD SOFTWARE APPLICATION FOR PROPERTY BUYING & RENTAL PROCESS IN CHENNAI CITY USING ANY CLOUD SERVICE PROVIDER TO DEMONSTRATE SAAS.

Aim:

To create a simple cloud software application for Property Buying and Rental Process in Chennai City using any Cloud Service Provider to demonstrate SaaS.

PROCEDURE:

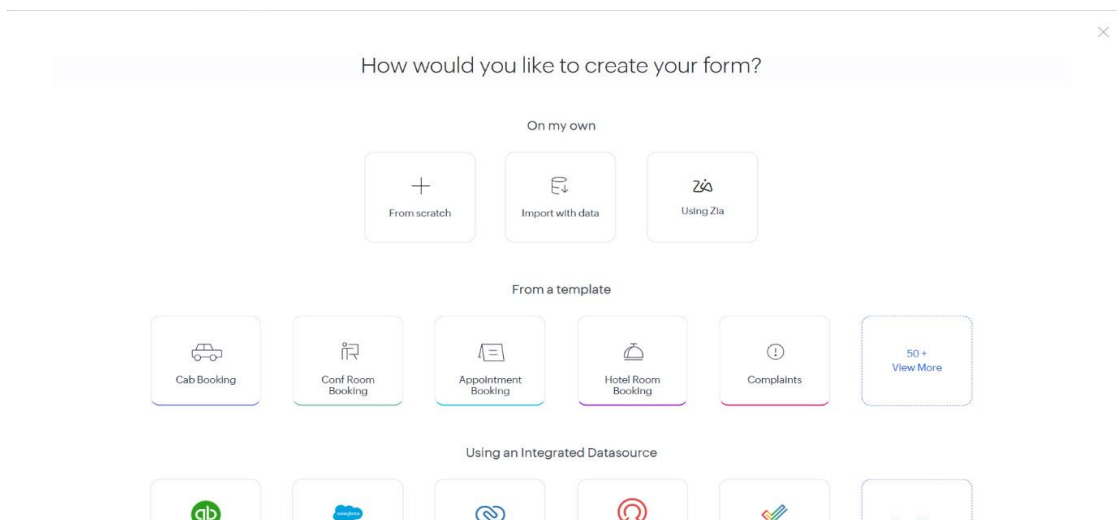

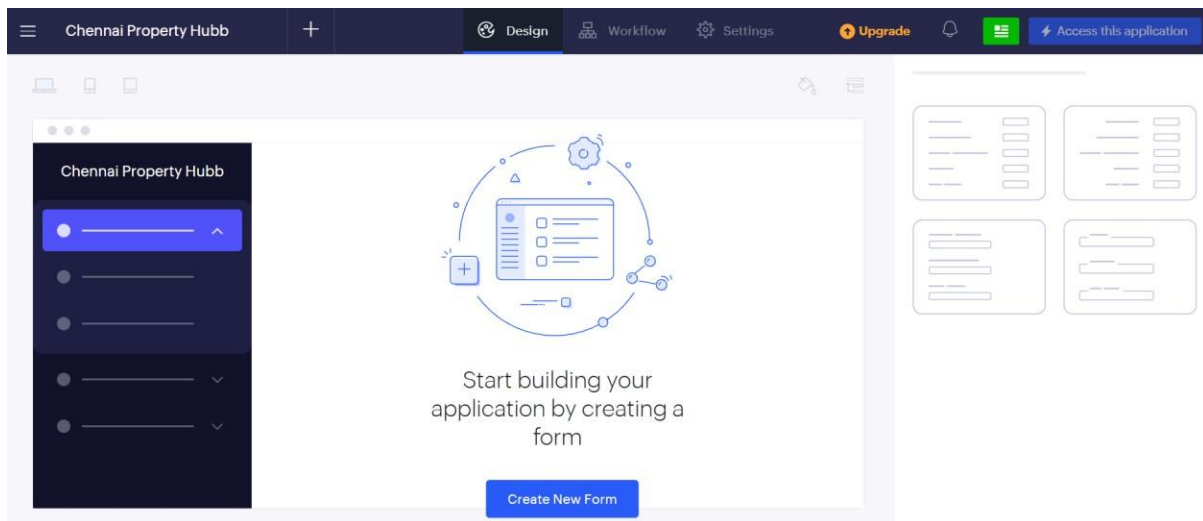

STEP 1: Log into **zoho.com**.

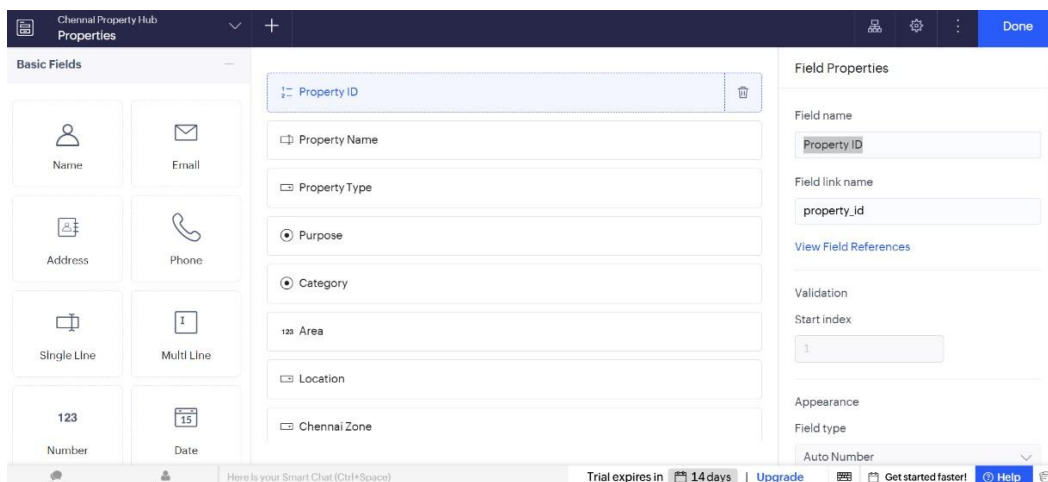

STEP 2: Create a new application from scratch in Zoho Creator.

The image shows the "Create from scratch" form in Zoho Creator. At the top, there is a logo consisting of four colored squares (blue, green, yellow, red) arranged in a 2x2 grid, with a plus sign below them. Below the logo is the text "Create from scratch". The form has a light blue background. It contains a label "Application Name" with a red asterisk, followed by a text input field containing "Chennai Property Hub". Below the input field is a checkbox labeled "Enable Environment" with a link "Learn More" in blue. At the bottom of the form is a large blue button labeled "Create Application".

STEP 3: Create a new application and create forms from scratch.

STEP 4: Create Property Form.

STEP 5: Create Customers Form.

The screenshot shows the 'Chennai Property Hub' interface for creating a 'Customers' form. The top bar includes a dropdown menu with 'Chennai Property Hub' and 'Customers', a plus icon, and a 'Done' button. The main area is divided into three sections: 'Basic Fields', 'Field Properties', and a central list of fields.

Basic Fields: A grid of icons for Name, Email, Address, Phone, Single Line, Multi Line, Number, and Date.

Field Properties: A panel on the right showing the configuration for the selected field, 'Customer ID'. It includes fields for 'Field name' (Customer ID), 'Field link name' (customer_id), 'Validation' (Start index: 1), and 'Appearance' (Field type: Auto Number).

Central Fields List: A list of fields to be added to the form, including 'Customer ID', 'Customer Name', 'Gender', 'Mobile Number', 'Email', 'Address', 'Preferred Property Type', and 'Status'.

STEP 6: Create Property Search Form.

The screenshot shows the 'Chennai Property Hub' interface for creating a 'Property Searches' form. The top bar includes a dropdown menu with 'Chennai Property Hub' and 'Property Searches', a plus icon, and a 'Done' button. The main area is divided into three sections: 'Basic Fields', 'Field Properties', and a central list of fields.

Basic Fields: A grid of icons for Name, Email, Address, Phone, Single Line, Multi Line, Number, and Date.

Field Properties: A panel on the right showing the configuration for the selected field, 'Buy or Rent'. It includes fields for 'Field name' (Buy or Rent), 'Field link name' (buy_or_rent), and 'Choices' (Buy, Rent).

Central Fields List: A list of fields to be added to the form, including 'Buy or Rent', 'Property Category', 'Preferred Location', 'Budget Range', 'Bedrooms', 'Furnishing', and 'Customer'.

STEP 7: Create Rental Agreement Form.

The screenshot shows the 'Chennai Property Hub' interface for creating a 'Rental Agreements' form. The top bar includes a dropdown menu with 'Chennai Property Hub' and 'Rental Agreements', a plus icon, and a 'Done' button. The main area is divided into three sections: 'Basic Fields', 'Field Properties', and a central list of fields.

Basic Fields: A grid of icons for Name, Email, Address, Phone, Single Line, Multi Line, Number, and Date.

Field Properties: A panel on the right showing the configuration for the selected field, 'Customer'. It includes fields for 'Field name' (Customer), 'Field link name' (customer), and 'Display type' (Multi Select).

Central Fields List: A list of fields to be added to the form, including 'Customer', 'Property', 'Agreement Start Date', 'Agreement End Date', 'Monthly Rent', 'Security Deposit', and 'Agreement Status'.

STEP 8: Create Book Search Form.

The screenshot shows the 'Book Search' form creation interface. On the left, under 'Basic Fields', there are icons for Name, Email, Address, Phone, Single Line, Multi Line, Number, and Date. The main area displays the form fields: Book Title, Author, Book Category, Publication, and Availability. On the right, the 'Field Properties' panel shows the configuration for the 'Book Title' field: Field name is 'Book Title', Field link name is 'book_title', and the character maximum is 255. The 'Validation' section has checkboxes for 'Mandatory' and 'No duplicate values'. The 'Initial value' field is empty, and the 'Character maximum' is set to 255.

STEP 9: Create Feedback form

The screenshot shows the 'Feedback' form creation interface. On the left, under 'Basic Fields', there are icons for Name, Email, Address, Phone, Single Line, Multi Line, Number, and Date. The main area displays the form fields: Student, Book, Rating, and Comments. On the right, the 'Field Properties' panel shows the configuration for the 'Student' field: Field name is 'Student', Field link name is 'student', and the display type is 'Multi Select'. The 'Display Fields' section shows a list of fields: SIMATS Library Book Reservation System, Student Details, and Student ID. The 'Display type' is set to 'Multi Select'.

STEP 10: Add sample data to all the created forms.

The screenshot shows the 'Student Details' form with sample data added. The form fields and their values are: Student Name (Kanmani), Registration Number (192511414), Department (Computer Science), Year Of Study (II Year), Mobile Number (+91 8765432199), Email (kanmanilogu04@gmail.com), and Status (Active). The 'Status' field has radio buttons for 'Active', 'Inactive', and 'Other'. The 'Department' and 'Year Of Study' fields have dropdown menus. The 'Mobile Number' field has a country code dropdown set to '+91'.

STEP 11: Create reports to display the data entered in the respective forms.

EXPERIMENT 5:

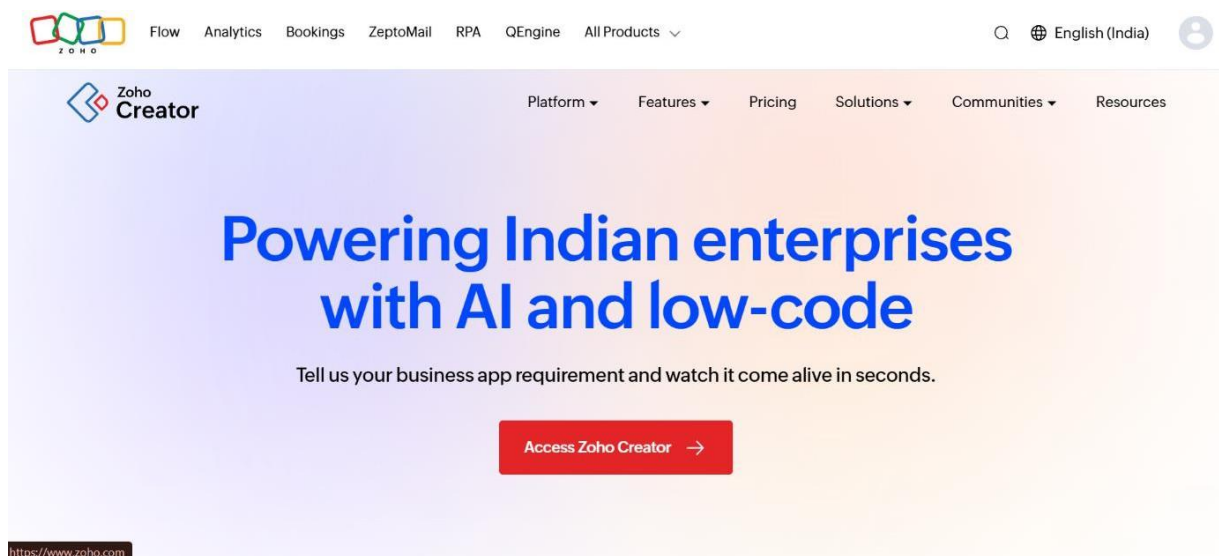

CREATE A SIMPLE CLOUD SOFTWARE APPLICATION FOR MARK SHEET PROCESSING SYSTEM USING ANY CLOUD SERVICE PROVIDER TO DEMONSTRATE SAAS.

AIM:

To create a simple cloud software application for Mark Sheet Processing System using any Cloud Service Provider to demonstrate SaaS.

PROCEDURE:

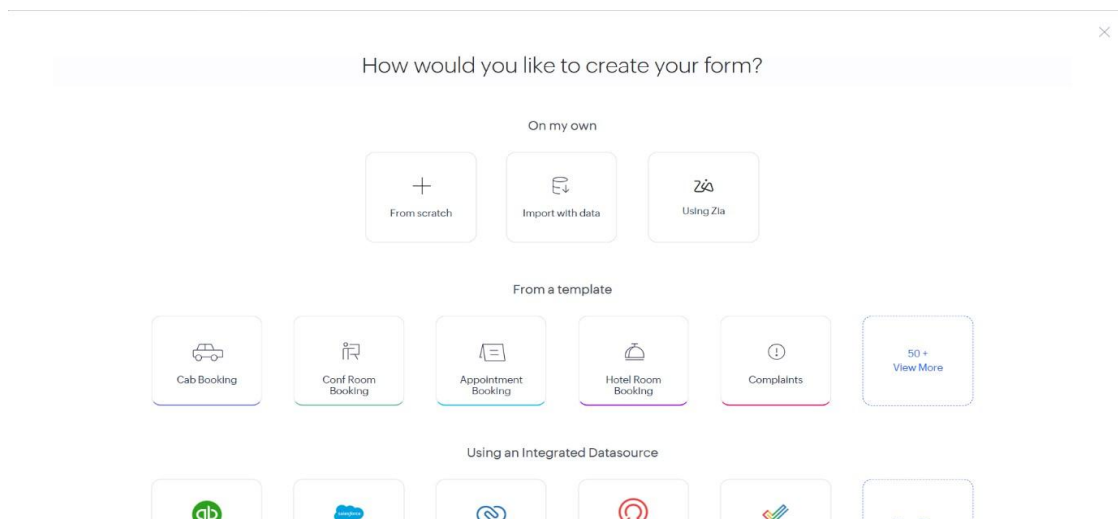

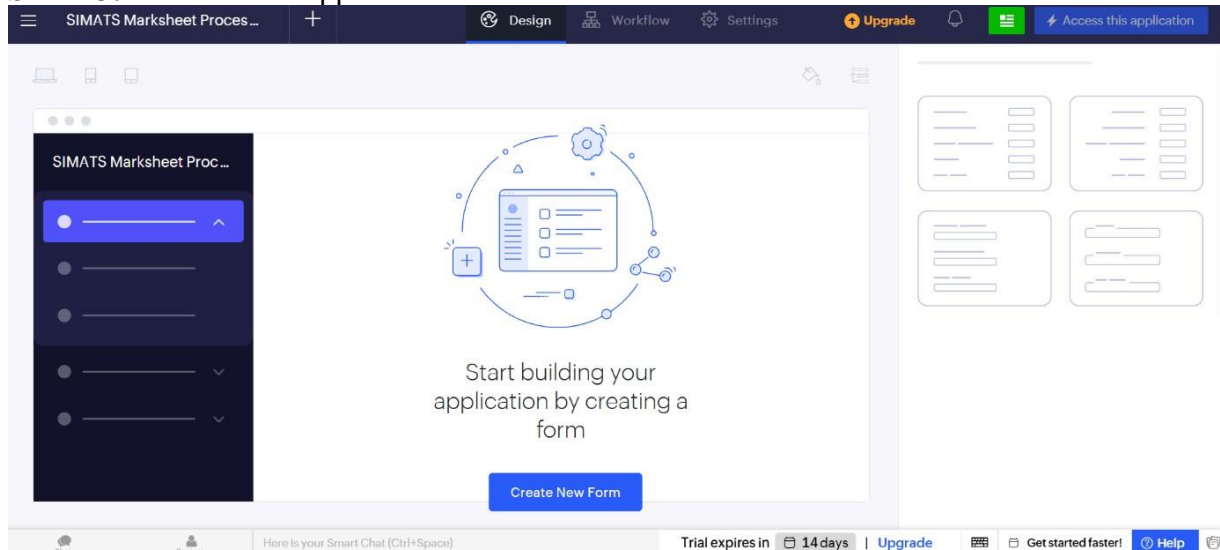

STEP 1: Log into **zoho.com**.

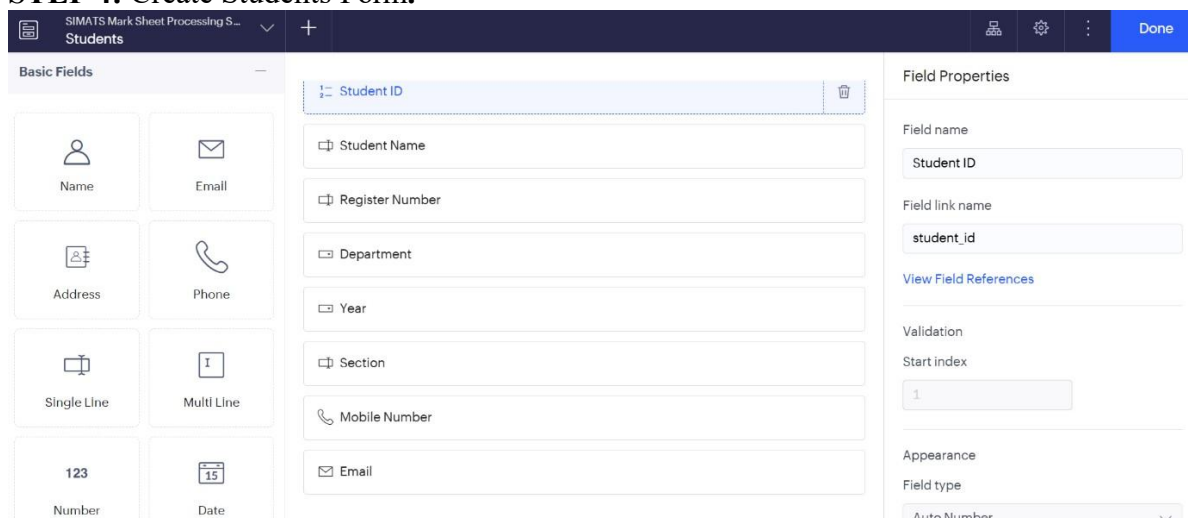

STEP 2: Create a new application from scratch in Zoho Creator.

A screenshot of the Zoho Creator "Create from scratch" form. At the top, there is a logo consisting of four colored circles (blue, orange, green, and red) arranged in a square. Below the logo, the text "Create from scratch" is displayed. The form contains a label "Application Name *" followed by a text input field containing "SIMATS Marksheet Processing System". Below the input field, there is a checkbox labeled "Enable Environment" with a link "Learn More" next to it. At the bottom of the form is a large blue button labeled "Create Application".

STEP 3: Create a new application and create forms from scratch.

STEP 4: Create Students Form.

STEP 5: Create Subject Form.

The screenshot shows the 'Subjects' form creation interface. On the left, a 'Basic Fields' panel contains icons for Name, Email, Address, Phone, Single Line, Multi Line, Number, and Date. The main area displays a list of fields: Subject ID (selected), Subject Code, Subject Name, Semester, Credits (123), and Faculty Name. On the right, the 'Field Properties' panel shows details for 'Subject ID': Field name is 'Subject ID', Field link name is 'subject_id', Validation Start index is '1', and Field type is 'Auto Number'. The top navigation bar includes a 'Done' button and a trial expiration notice: 'Trial expires in 14 days | Upgrade | Get started faster! | Help'.

STEP 6: Create Marks Form.

The screenshot shows the 'Marks' form creation interface. The 'Basic Fields' panel is the same as in Step 5. The main area displays a list of fields: Student (selected), Subject, Internal Marks (123), External Marks (123), Total Marks (123), and Grade. On the right, the 'Field Properties' panel shows details for 'Student': Field name is 'Student', Field link name is 'student', and Display Fields include 'SIMATS Mark Sheet Processing System' and 'Students'. The top navigation bar includes a 'Done' button and a trial expiration notice: 'Trial expires in 14 days | Upgrade | Get started faster! | Help'.

STEP 7: Create Mark Sheet Form.

The screenshot shows the 'Mark Sheets' form creation interface. The 'Basic Fields' panel is the same as in Step 5. The main area displays a list of fields: Student (selected), Semester, Total Marks (123), Average (123), Percentage (123), Overall Grade, and Overall Performance (selected). On the right, the 'Field Properties' panel shows details for 'Student': Field name is 'Student', Field link name is 'student', and Display Fields include 'SIMATS Mark Sheet Processing System' and 'Students'. The top navigation bar includes a 'Done' button and a trial expiration notice: 'Trial expires in 14 days | Upgrade | Get started faster! | Help'.

STEP 8: Create Feedback Form.

The screenshot shows the 'SIMATS Mark Sheet Processing System' interface for creating a 'Feedbacks' form. The top bar includes a 'Done' button. The left sidebar shows 'Basic Fields' with icons for Name, Email, Address, Phone, Single Line, Multi Line, Number, and Date. The main area displays a form with fields for 'Student' (with a search icon), 'Rating', and 'Comments'. The right sidebar shows 'Field Properties' for the 'Student' field, including 'Field name', 'Field link name', 'View Field References', 'Display Fields', and 'Display type'. The bottom status bar indicates 'Trial expires in 14 days' and provides links for 'Upgrade', 'Get started faster!', and 'Help'.

STEP 9: Create Rank List Form.

The screenshot shows the 'SIMATS Mark Sheet Processing System' interface for creating a 'Rank Lists' form. The top bar includes a 'Done' button. The left sidebar shows 'Basic Fields' with icons for Name, Email, Address, Phone, Single Line, Multi Line, Number, and Date. The main area displays a form with fields for 'Student' (with a search icon), 'Percentage', 'Rank', and 'Academic Year'. The right sidebar shows 'Field Properties' for the 'Student' field, including 'Field name', 'Field link name', 'View Field References', 'Display Fields', and 'Display type'. The bottom status bar indicates 'Trial expires in 14 days' and provides links for 'Upgrade', 'Get started faster!', and 'Help'.

STEP 10: Add sample data to all the created forms

The screenshot shows the 'SIMATS Mark Sheet Processing System' interface for adding sample data to the 'Subjects' form. The top bar includes a 'Done' button. The left sidebar shows 'SIMATS Mark Sheet Proces...' with a list of options: Dashboard, Marks, Mark Sheets, Feedbacks, Subjects, Subjects Report, Rank Lists, and Students. The main area displays a form for 'Subjects' with fields for 'Subject Code', 'Subject Name', 'Semester', 'Credits', and 'Faculty Name'. The bottom status bar indicates 'Trial expires in 14 days' and provides links for 'Upgrade', 'Get started faster!', and 'Help'.

STEP 11: Create reports to display the data entered in the respective forms.

STEP 1: Log into [zoho.com](https://www.zoho.com).

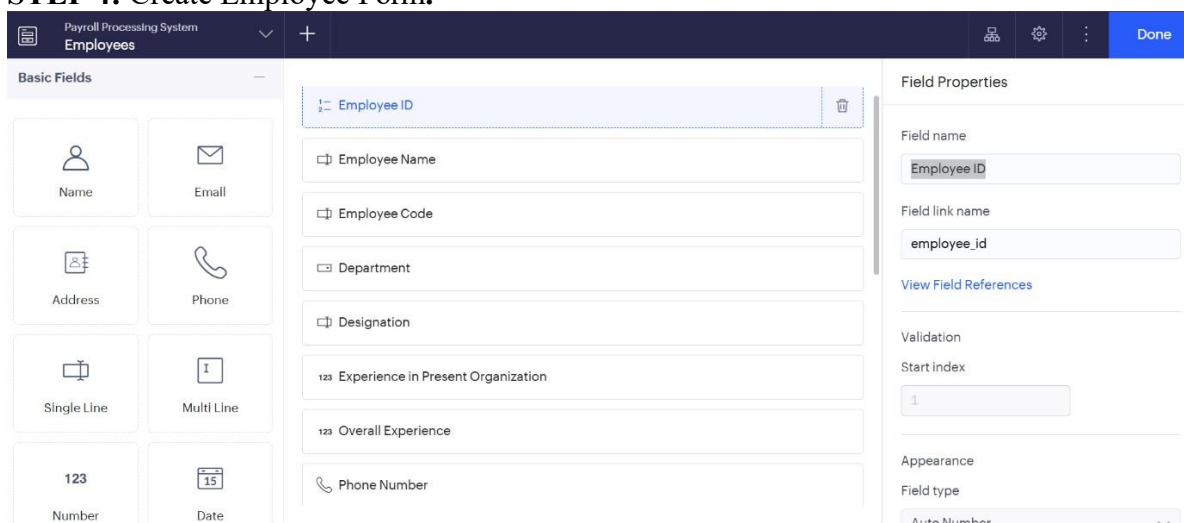

STEP 2: Create a new application from scratch in Zoho Creator.

The image shows the "Create from scratch" form in Zoho Creator. At the top, there is a header with the Zoho logo and the text "Create from scratch". Below this, there is a form with a label "Application Name" followed by a red asterisk. The text "Payroll Processing System" is entered in the input field. Below the input field, there is a checkbox labeled "Enable Environment" followed by a link "Learn More". At the bottom of the form, there is a large blue button labeled "Create Application".

STEP 3: Create a new application and create forms from scratch.

STEP 8: Create OD Requests Form.

The screenshot shows the configuration interface for the 'OD Requests' form. The top bar includes 'Student Attendance Management', 'OD Requests', and a 'Done' button. The interface is divided into three main sections:

- Basic Fields:** A grid of field types including Name, Email, Address, Phone, Single Line, Multi Line, Number, and Date.
- Field List:** A list of fields added to the form: Student (with a search icon), Course, OD Date, Reason, and Status. Each field has a trash icon for removal.
- Field Properties:** A panel for configuring the selected 'Student' field. It includes:
 - Field name:** 'Student'
 - Field link name:** 'student'
 - View Field References:** A link to view references.
 - Display Fields:** A section showing 'Student Attendance Management' and 'Students' with a dropdown menu set to 'Student ID' and plus/minus icons.
 - Display type:** A dropdown menu set to 'Multi Select'.

STEP 9: Create Feedback Form.

The screenshot shows the configuration interface for the 'Feedbacks' form. The top bar includes 'Student Attendance Management', 'Feedbacks', and a 'Done' button. The interface is divided into three main sections:

- Basic Fields:** A grid of field types including Name, Email, Address, Phone, Single Line, Multi Line, Number, and Date.
- Field List:** A list of fields added to the form: Student (with a search icon) and Comments. Each field has a trash icon for removal.
- Field Properties:** A panel for configuring the selected 'Student' field. It includes:
 - Field name:** 'Student'
 - Field link name:** 'student'
 - View Field References:** A link to view references.
 - Display Fields:** A section showing 'Student Attendance Management' and 'Students' with a dropdown menu set to 'Student ID' and plus/minus icons.
 - Display type:** A dropdown menu set to 'Multi Select'.

STEP 10: Add sample data to all the created forms.

The screenshot shows the 'Students' form in the 'Student Attendance Management' application. The top bar includes 'Student Attendance Management', 'Students', and a 'Done' button. The interface is divided into three main sections:

- Left Sidebar:** A navigation menu with options: Dashboard, Attendance Entries, Attendance Sum..., Students (selected), Students Report, Board, Courses, OD Requests, Feedbacks, and Kanmani Log.
- Form Fields:** A list of fields with sample data:
 - Student Name: Shubnum
 - Register Number: 192509037
 - Course: 2 x
 - Year: II
 - Section: c
- Buttons:** 'Submit' and 'Reset' buttons.

STEP 11: Create reports to display the data entered in the respective forms.
